

Assignment 3 Name_____

1. Your target for this assignment is to create an external style sheet for your course homepage index.html.
2. Here are specifications for this assignment.
 - ☐ In the head section of your index.html document, create a link which links to this style sheet "css/home.css".
`<link rel="stylesheet" href="css/home.css ">`
 - ☐ Update your "index.html" document as follows
 - Add more information in your introduction section.
 - ☐ Create an external style sheet and name your file "home.css"
 - ☐ Put the following style rules in your style file "home.css"
 - Layouts: Use appropriate style rules to create similar layout as the snapshots.

Option 1:

- Use fixed position style for introduction section, navigation section and footer element.
- Float paragraphs in introduction section to the left, image to the right. Please adjust width and height of your image.
- Use absolute position style for assignment section.
- To get pixel perfect layout, please adjust width, height, padding, margin carefully.

Option 2:

- Use fixed position style for footer element.
- Use absolute position style for introduction, portfolio, schedule, contact and address sections and put them in the center of page. *They will overlap with each other. * Hide all the above sections.
- Move the h1 elements in each section to the appropriate locations in the page. You need to use absolute or fix position style as well. Please check the screenshot.
- Whenever the mouse hovers over h1 element, the corresponding section will show up. *No javascript/jQuery is allowed, please use only CSS/CSS3*

Option 3: Use CSS Grid to create similar layout as Option1 or Option2
